C-4ZON-RF

4-zone expander for security system with OT-16S_ keypad.

Technical data

Power supply of CENTRALSEC	12 V DC
Frequency	868.3 MHz
Ingress protection IP	IP20

Description

The C-4ZON-RF is a 4-zone expander for the ONLY security system with radiofrequency reception to capture ONLY commands and transcribes it to the wired BUS, allowing the control of any ONLY automation output via RF remote control.

Each zone is configurable as intrusion or 24h. The C-4ZON-D-RF reports periodically the status of its zone inputs and immediately when there is a change.

Up to 8 expander units can be installed in one system implementation, thus totalling a maximum of 40 zones (8 zones of CENTRALSEC included).

Applications

Security system.
Support for security keyboard.

Installation

The C-4ZON-RF is mounted in a deep flush-mounting box (60 mm), where the OT-16S_ touch panel will be attached.

Features

4 configurable zones
Automatic detection of the type connection (normally closed, double end of line resistance)

Danger - Electric Shock Risk!

Switch off the power before any intervention.

Handling by qualified and authorized persons only.

Subject to change without notice
