

DIN Rail D-8TERMO

DIN Rail 8-channel programmable thermostat actuator (independent by relay)

Technical data

Power supply	110/230 V ~ 50/60 Hz
Consumption	< 1.5 W
Maximum current	16 A cos Φ = 1
Ingress protection IP	IP20

Description

The D-8TERMO is a DIN rail climate control actuator to control the ambient air heating / cooling systems. This control is independent of the heat or cold actuators and is by potential free contacts.

Each D-8TERMO thermostat needs to receive air temperature information via a OT-T6S_ / OT-T4S_ panel remote control installed on any command C-_OUT_, C-1SHU, C-IN_, etc.

Applications

Control of climatization by boiler, radiators or radiant floor in homes, shops, hospitals, clinics and hotels.

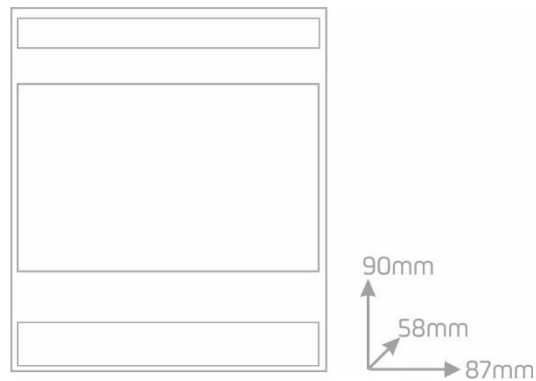

Installation

The D-8TERMO is made for DIN rail mounting, occupying 5 modules of 17.5 mm.

Features

Allows the outputs manual control with status indication by LED's

Allows independent control of 8 zones.

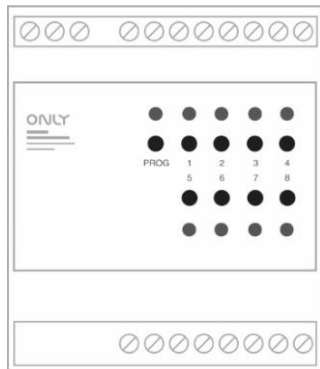

Danger - Electric Shock Risk!

Switch off the power before any intervention.

Handling by qualified and authorized persons only.

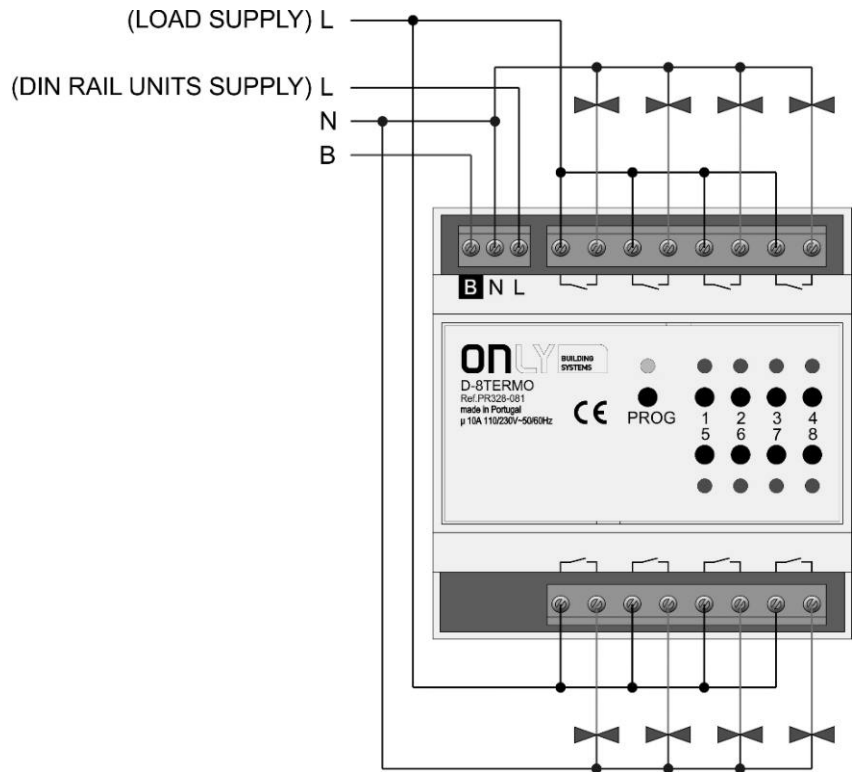

Subject to change without notice
