DIN Rail

D-FTC2E

Automation BUS adapter for Ethernet

Technical data

Power supply	110/230 V ~ 50/60 Hz
Consumption	< 1.5 W
Ingress protection IP	IP20

Description

The D-FTC2E is a module that connects the automation BUS to a Local Area Network allowing remote visualization and control.

It implements a simplified communication protocol suitable for applications on mobile platforms.

It can be connected to a 10/100 Base T Router or Switch through a RJ45 connector.

Applications

Connection of the BUS to a LAN.

Installation

The D-FTC2E is mounted on DIN Rail, occupying 5 modules of 17.5 mm.

Features

Performs a Gateway function to all ONLY modules
Internet control and visualization
Encrypted messages
Register on device protected by PIN

90mm
58mm
87mm

⚠

Danger - Electric Shock Risk!

Switch off the power before any intervention.

Handling by qualified and authorized persons only.
