

**Box**  
**B-FMBT08S\_**

Ambient sound module.

**Technical data**

Power supply 110/230V~ 50/60Hz  
 Consumption (Standby/Max.) 0.7W / 20W  
 OUT1 max. power: 2x 7W @8ohm  
 AUDIO IN/OUT max. 2.5Vrms  
 Frequency response 20Hz-20KHz

FM 87.5-108 MHz, RDS  
 FM memories 6

Bluetooth range 10m  
 Bluetooth 3.0 class 2, A2DP audio profiles,  
 AVRCP

Ingress protection IP IP20

**Description**

The B-FMBT08S\_ <sup>(1)</sup> is an ambient sound module that include 4 <sup>(2)(3)</sup> audio sources, stereo amplifier for 8Ω speakers and 2 sound zones from the same signal source but independent volume.

Possibility of a distribution in a point-to-point cascade - Multi-room <sup>(4)</sup>.

The unit includes the respective power supply (110/230V~).

**Applications**

Ambient audio systems in homes, shops, hospitals, clinics and hotels.

**Installation**

Suitable for placement in the false ceiling next to one of the speakers for easy access if required. Cooling slots should be left free and facing up to allow air circulation.

Requires connection to the ONLY automation BUS.

**Available Units**

Name	Bluetooth	FM	Zones
B-FMBT08S-C	✓	✓	1 <sup>(3)</sup>
B-FMBT08S -2Z	✓	✓	2

**Features**

- <sup>(2)</sup> FM radio
- <sup>(2)</sup> Bluetooth
- <sup>(2)</sup> 2 auxiliary Inputs <sup>(3)</sup>
- Stereo amplifier for 8Ω speakers
- Volume control in 2 zones
- Multi-room <sup>(4)</sup>
- Incorporated power supply
