DIN Rail
D.WSX1_

Multiprotocol server Only

Technical data

Power supply   110/230V ~ 50/60Hz
Power consumption   ≤1.5W

Ingress protection IP   IP20

Description

The D.WSX1_ is a multiprotocol server for managing and operating the entire automation installation.
Access is via the native BeOnly application, with the possibility of customizing the user experience.
It must be connected to the installation's local network using a UDP/FTP cable to a port on the Router/Switch.
It has backup power to perform a (controlled) shutdown in the event of a power failure.

Applications

Control and management of the entire installation via APP.

Installation

The D.WSX1_ is to be mounted on DIN Rail, occupying 8 modules of 17.5 mm.

Available modules

Name	KNX	Z-WAVE
