

DIN Rail D-1DIMDW

Dynamic White LED strip actuator

Technical data

Power supply	110/230V~ 50/60Hz
Consumption	< 0.5W
Maximum current of the load	2 x 6.5A
Ingress protection IP	IP20

Description

The D-1DIMDW is an actuator for the control of Dynamic White LED strips. It requires an external 12/24VDC power supply for the LED strip (not included).

Applications

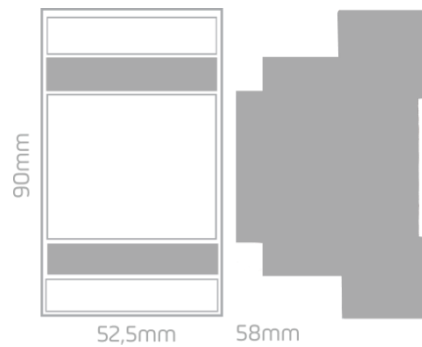

White color temperature control from warm tones (2700-3000K), through cold tones to daylight (5000 -6000K) in homes, shops, hospitals, clinics and hotels.

Installation

The D-1DIMDW is to be mounted on DIN Rail, occupying 3 modules of 17.5 mm.

Features

- Brightness adjustment, 0-100%
- Colour temperature setting, 0-100% (0% = cold light / 100% = warm light)
- Local control
- Output state indicated by LED
- Automatic memory of last selected light level

Danger - Electric Shock Risk!
Switch off the power before any intervention.

Handling by qualified and authorized persons only.

Subject to change without notice
